0587961920 | ronifadlon1999@gmail.com | Or Yehuda, Israel

B.Sc. graduate in Computer Science from HIT (Holon Institute of Technology), with a final GPA of 89.58. Experienced in Full-Stack development with React, Node.js, Express, and MongoDB, alongside Python-based projects in NLP, RAG, and computer vision. Gained hands-on experience developing an AI-based RAG system in a joint project with the IDF Military Advocate General's Corps. Fast learner with strong analytical and problem-solving skills, seeking a Junior Software Developer position.

Education

2024 - 2026 | Holon Institute of Technology (HIT)

B.Sc. in Computer Science | Final GPA: 89.58

Work Experience

February 2026 - September 2026 | AI Software Developer - RAG Project, IDF Military Advocate General's Corps (Joint Project with HIT)

- Developed and improved a RAG system for legal documents and source-grounded answers using Python, Azure AI Search, and Azure OpenAI.
- Implemented Multi-Query Retrieval, evaluated hierarchical chunking strategies, improved the user interface, and built an automated evaluation framework for retrieval and answer quality.

November 2025 – September 2026 | Private Math Tutor, Learning Center

One-on-one and group instruction; tailored practice exercises to students' individual needs.

August 2025 - April 2026 | Course Developer & Instructor, CS24

Developed and taught a digital Calculus II course for computer science students.

Technical Projects

BookConnect - Social platform for book lovers

- Developed a Full-Stack application using Next.js, React, Node.js, Express, and MongoDB.
- Implemented JWT authentication, posts, comments, search, private/public groups, and real-time chat.

SkillSight - NLP system for identifying skills in resumes

- Developed an NLP system to identify and classify explicit and implicit skills using a synthetic labeled dataset of 3,500 examples covering 136 skills.
- Compared Zero-Shot, One-Pass, and Pairwise approaches based on GPT-4o-mini and RoBERTa; the Pairwise model achieved a Typed F1@K of 73.7% on a 525-example test set.

Robo-Rick - Robotic dog controlled by voice and hand gestures

- Developed an interactive system to control an XGO CM4 robot using Python, Vosk, OpenCV, and MediaPipe.
- Implemented voice commands and real-time hand-gesture recognition to control the robot's motion.

Technical Skills

Programming Languages: Python, JavaScript, Java, C, C++, C#, SQL

Web & Databases: React, Next.js, Node.js, Express, HTML, CSS, REST API, MongoDB

AI & Tools: NLP, RAG, Azure AI Search, Azure OpenAI, OpenCV, MediaPipe, Vosk, Git, Azure, Docker

Languages

Hebrew - Native | English - Good
